Objective

As a dedicated and detail-oriented software professional with expertise in artificial intelligence, data science, and full-stack development, my objective is to leverage my technical and problem-solving skills to contribute to innovative projects. I aim to deliver scalable and efficient solutions by blending advanced technologies with practical applications. Having gained substantial experience in end-to-end project development, data warehousing, and real-time communication platforms, I am committed to learning and adapting to the latest trends in technology. My strong foundation in machine learning, natural language processing, and software engineering enables me to excel in collaborative and research-driven environments. I am eager to take on challenging opportunities that push the boundaries of technology while driving impactful outcomes for businesses and society.

Education

University of Example

vadodara, gujarat

Bachelor of Science in Computer Science

Sep 2018 – May 2022

- Cumulative GPA: 3.8
- Relevant Coursework: Data Structures, Algorithms, Machine Learning

Projects

Portfolio Website
